

APR 19 2012

Cookeville Environmental Field Office  
1221 South Willow Avenue  
Cookeville, TN 38506

To Whom It May Concern:

My name is Bobby Gene York III, and I am writing in response to the Compliance Evaluation Inspection that took place on my poultry farm at 1105 Old Sunbright Road in Fentress county. Cookeville Environmental Field Office personnel observed some issues that I am asked to correct. First, some litter was spilled onto the concrete aprons in front and behind of the houses and on the gravels. I will remedy this by cleaning the litter up as best I can and top dress with lime. Second, there were some drainage issues and litter spillage issues around the litter storage shed. I will remedy this by cleaning up the litter as best I can, top dressing with lime, and redirecting the drainage water, so that it is not around the litter storage shed. Third, the Nutrient Management Plan and litter removal records will be kept on site from now on. I need a little bit of time to remedy the first and second issues, as we are cleaning out the houses this month, and we need suitable weather to fix the drainage issues. I am thinking I can have the issues resolved by July 1, 2012.

Respectfully,

  
Bobby Gene York III
